Entered at the Post Office at Grand Rapids, Wis., as second-class mail matter.

SUBSCRIPTION RATES.

One Year, \$1.50
Six Months, .75

Advertising Rates.—For display matter at a rate of 10 cents an inch is charged. The columns in the Tribune are 24 inches long, making a one column advertisement cost \$2.40 for one insertion. All local notices, cards of thanks, resolutions of respect, and all notices of entertainments where an admission fee is charged will be published at 5 cents per line.

Doings at Jamestown.

On the 15th day of May, 1907, on the waters of Hampton Roads and on its shores in Norfolk county, the three hundredth anniversary of the first permanent settlement of English-speaking people in America will be commemorated by the Jamestown Exposition. This date will be Jamestown Day. There were Spanish settlers in America before Jamestown, and the French had established some villages along the Canadian coast, but the palisades on Powhatan's River which were named after the reigning monarch of England formed the first village in the western world where English was spoken.

The descendants of the original settlers are scattered throughout the United States.

Recently when the Daughters of the American Revolution visited Jamestown Island, it was found that not less than fifteen visiting members of the society traced their ancestry directly to some inhabitant of Jamestown.

The Exposition management have discovered many Jamestownians and have invited them to participate in the celebration on the 15th day of May.

Recently it has been suggested that inhabitants of other Jamestownians and descendants of past inhabitants should be included in the general invitation, and, realizing this thought, taken in the people of all the cities named after James the First.

The Postal Guide of the United States gives Jamestown in the following states: Alabama, Arkansas, California, Colorado, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Missouri, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, Tennessee and Wisconsin, besides Virginia's settlement.

Three of these Jamestownians are county seats; one the capital of Russell county, Kentucky; another of Sturgeon county, North Dakota; and the third of Pontreave county, Tennessee.

Jamestown, New York, is the largest of the cities with a population of about 25,000; Virginia is the smallest, having only ten inhabitants.

There are seven postoffices called James, three Jamestons, one James City, one James Creek, one James Island, two Jamestons, one James River, one James store, two Jamesville.

Each of the Jamestons are fairly sizable places and three of the Jamestons have money order stations and are places of considerable consequence.

Twenty-five states have within their borders one or more towns named after James the First, who, if he could return to earth, would probably perpetrate some wonderful epigram on the subject, since while living he was known as "the wisest fool in Christendom."

Will Have Sanitarium.

Stevens Point Gazette.—Dr. Thos. H. Hay, of Milwaukee, who last January purchased a tract of land on the east bank of the Wisconsin river, north of the Wisconsin River Paper Co. mill, has been in the city for the past few days, accompanied by his wife, and while here is making arrangements for the immediate construction of new buildings thereon, which will be used as a tuberculosis sanitarium. For the past 15 years Dr. Hay has given the treatment of tuberculosis his almost undivided attention and to continue this work in a way that will be beneficial to the afflicted, he will establish himself among the pines on one of Nature's most beautiful spots on the banks of the Wisconsin river.

Three buildings will be erected at once and the plans for the same are now in the hands of our local contractors, who will be able to submit their bids in a few days. The large building will be a two-story dormitory, 100x50 feet in size, while another, 100x50 feet will comprise the administration building, office and dining room, with the second floor to be used as sleeping and living rooms for the nurses, assistants and help. The third will consist of a cottage to be occupied by the doctor and family. Additional cottages will be erected as rapidly as the demands warrant, and another dormitory may also be erected in the near future.

The doctor has the utmost confidence in the success of his undertaking and comes to Stevens Point with a reputation of being a most successful physician and worthy citizen. At the last session of the legislature the state appropriated the sum of \$50,000 for the construction of an institution of this kind. Dr. Hay will move to Stevens Point in a few weeks to take up his permanent residence here.

Have Invented New Valve System.

Marshfield Times.—Thos. Steinmetz, director of the Second Regiment Band of this city, and Albert O. Pambon of Sharon, N. D., have applied for letters patent on an improved valve system that can be applied to any valve musical instrument. The object of the inventors is to get a system of valves or air-piping that will make it possible to produce all tones of equal power and quality. Instead of having thirteen sharp turns as the

horns now in use have, the new device has but three turns or bends which makes the instrument easier to play and all tones will be alike and equal in regard to quality. Mr. Steinmetz expects to have a model of his invention here next Saturday and local musicians who have had the theory explained to them claim that the new attachment, if a success, will revolutionize the whole valve instrumentation of military bands and is bound to become popular. The inventors have taken steps to secure patents on their new device in foreign countries and there is every prospect that the patent will make good money out of their invention.

Front Fishing Laws.

It is hereby prohibited and made unlawful:

(a) to fish for, catch or kill in any of the inland waters of this state, with any device, or in any manner, with any variety of trout between the first day of August and the succeeding first day of May;

(b) to ship trout of any variety without accompanying the shipment;

(c) to sell, offer for sale or barter any variety of trout;

(d) to have in possession or under control, any variety of trout, which were caught in any of the inland waters of this state, in possession or under control in any one day during the open season;

(e) to fish for, or by any device attempt to catch or kill, any variety of fish in any of the streams of this state (except navigable rivers) which contain trout of any variety, during the closed season specified herein for trout;

(f) to take and retain trout of any variety less than six inches in length; trout so taken to be immediately returned without injury to the water where taken.

Any person violating any of the provisions of this act shall, on conviction thereof, be punished by a fine of not less than ten dollars nor more than fifty dollars and the costs of prosecution, or by imprisonment in the county jail of the county in which the offense was committed, for not less than ten days nor more than sixty days, or by both such fine and imprisonment in the discretion of the court.

One Hundred Years Since Pikes Peak Was Discovered.

Elaborate plans are being made at Colorado Springs to celebrate in truly western style the Centennial of the day when Mount Pikes Peak first sighted the famous peak, which was afterwards the landmark of the hardy pioneer whose wagon train wended its slow way across the plains.

The Chicago & North-Western railway announces extensive preparations for this event on the part of Colorado Springs and Denver, as well as on behalf of the various railway lines.

It is understood that the last week in September is to be devoted to a round of festivities to be participated in by ten thousand United States Regulars, and a concourse of Indians representing the various tribes with which the intrepid explorer came in contact on his toilsome march of discovery.

The National Guards, cadets, veterans, cowboys, pioneers, patriotic societies, fraternal societies and citizens generally will also take part in the program, which will include drills by the troops, war dances by the Indians, cowboy sports, parades and tournaments.

The following communication was recently received from a subscriber: "Dear Sir: I hereby offer you cordialness as a subscriber to your paper, it being a pamphlet of such small consequence as not to benefit my family by taking it. What you need in your state is brains and some one to rattle up news and rife editorials on live topics. No man has his mind in your state of mind butcherin' a pulchritudine pig weightin' 200 pounds or the gaps in the chicken out this way. You ignore the fact that I lost a brain new bob and said that I traded my blind mule and say nothing about it. I Stimpkin's jersey calf breaking his two front legs falling in a well, 2 important chivveros have been utterly ignored by your state and a 3 column obituary notice writ by me on the death of granpa Henry was left out of your state to say nothing of the alphabetical poem beginning 'A is for And and also for Ark,' writ by me darter. This is the reason your paper is so unpopular here. If you don't want gypsies from this place and ain't going to put up no news in your state we don't want said shits. P. S.—If you print obituary in your next I may sign again for your state."

Demand for Engineers.

Madison, Wis., April 25.—The demand for engineers who are to be graduated from the college of engineering of the University of Wisconsin is unusually brisk this year. Representatives of practically all the large engineering companies of the country have been spending several days in Madison during the past ten days trying to secure members of the graduating class. The General Electric Co. of Schenectady, N. Y., has sent C. I. Burkholder, Wis., '06, assistant electrical superintendent of the Schenectady works, to secure electrical engineers. The Westinghouse Co. is represented by C. E. Davenport on a similar mission. Messrs. J. R. Craft of the Western Electric Co., Westing of Allis-Chalmers, Allard Smith, Wis., '06 of Chicago, Telephone Co., have also secured a number of men. The New York Telephone Co., the largest telephone operating company in this country, is to send the heads of plant operation and traffic departments to engage graduates who have specialized in telephony.

All smart up-to-date women of to-day know how to bake, wash, sing and to play.

Without these talents a wife is N. G. Unless she takes Rocky Mountain Tea.

Johnson & Hill Co.

ORDER BOOKS—Town and School Order Books always on hand at the Tribune office. 100 orders bound in book, 35 cents.

SARATOGA.

Miss Katie O'Connor of Hancock is visiting at the home of her grandparents, Mr. and Mrs. Frank Gallagher.

Miss Jane Kuntson went to Milwaukee Monday where she will spend the summer.

The Lawrens and Brownie families arrived from Chicago Thursday.

Miss Anna Kuntson went to Milwaukee Monday where she will visit her grandmother.

You feel the life giving current the minute you take it. A gentle soothing warmth, fills the nerves and blood with life. It's a real pleasure to take Holister's Rocky Mountain Tea. 35 cents. Tea or Tablets. Johnson & Hill Co.

CLEANMOOR.

Mrs. E. B. Warner and daughter were recent callers at the home of Mrs. James Gaylor.

Mr. and Mrs. S. N. Whittlesby and Miss Strandt spent Easter Sunday with Mr. and Mrs. James Gaylor at Port Edwards.

Mr. and Mrs. Timothy Foley drove to Armonia Sunday to spend Easter with relatives.

E. P. Arpin of Grand Rapids came down on the noon train Monday to look after the interests of the Arpin Cranberry Co.

H. P. Whittlesby transacted business in Nekosia Monday.

Frank Patterson, Misses Myra Kruger, Lillie Warner and Alma Strandt boarded the noon train Monday for Babcock where they were going to participate in the Easter Monday ball. Gilman Warner and Miss Granger followed later in the day. All report a very enjoyable time.

Atty. H. E. Fitch of Nekosia, returning from a business trip to Milwaukee and other points stopped over Saturday night for a little visit with his folks, especially his grandmother who has been greatly since the recent double bereavement in her family.

There was a large attendance of cranberry growers from this and various other sections of the state Wednesday at Grand Rapids to complete arrangements for the Cranberry Sales Co. A board of directors was elected representing the principal marsh districts.

Miss Caroline Fitch returned Wednesday evening from Madison, Ind., St. Louis, Mo., after a weeks absence.

MEEHAN.

Mr. and Mrs. A. E. Pike returned to Adams Co. on Friday.

Mr. Swanson of Chicago is here making some repairs on his house and planting some elm and maple trees.

There will be a box social at the home of Mrs. Claudine Friday night for the benefit of the church.

Wm. Glauster is painting Mr. Swanson's buildings this week.

There was a dance at the home of F. Paewlie last Saturday night.

E. L. Bailey is buying potatoes at Plow for J. A. Brumner.

Mr. Paulus of Annot was a guest at the Houtman home Sunday.

St. H. Manger went to Buena Vista the first of the week to visit friends.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mother, buy it for my cough children, railroad men buy it for severe coughs and elderly people buy it for a gripe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be purchased for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by John E. Daly, Druggist.

This is the season of listlessness, head-aches and spring disorders. Holister's Rocky Mountain Tea is a sure preventative. Makes you strong and vigorous. 35 cents. Tea or Tablets. Johnson & Hill Co.

Good Breeding.

A man's own good breeding is the best security against other people's ill manners. It carries along with it a dignity that is respected by the most potent. It breeding invites and authorizes the familiarity of the most timid. No man ever said a pert thing to the Duke of Marlborough. No man ever said a civil one to Sir Robert Walpole—Chatterfield.

Bank of England Clerks.

The patronage of the Bank of England belongs entirely to the directors, a clerk being appointed by each director in rotation until the vacancies are filled, with the exception of one clerkship in every seven, which is given to a son of one of the clerks of the establishment who has discharged his duties to the satisfaction of the directors.

Getting Him in Line.

Dr. Young—You're a little bit under weight. You don't eat enough. Mr. Young—Nonsense! If I were to eat more I'd have dyspepsia. Dr. Young—I know that, but that's my specialty, you know.—Exchange.

Price of It.

Tomkins—That's a handsome umbrella you've got there, Gibbs. Gibbs—Yes, Tomkins. Tomkins—About how much does it cost to carry an umbrella like that? Gibbs—Eternal vigilance—illustrated Bits.

A Corn Producer.

Church—You say he's in the corn producing business? Gosh—Yes, indeed. Church—I don't understand you. Gosh—Why, he's a shoe manufacturer.

Another Family.

Mrs. Kitcher—I thought your cook was a jewel. Mrs. Becker—So she was, but she has been reset.—Harper's Bazar.

A Wise Man Should Have Money in his Hand, but not in his Heart.—Swift.

St. Paul Road Extension.

A dispatch from Calumet, Mich., recently states that another crew of surveyors has arrived at Ontonagon and it is understood work will be started this summer by the Milwaukee road on an extension from Ontonagon to Star Lake to connect with the Valley division. Present plans include the construction of twenty-eight miles this season.

Do You Keep Cows?

If so, buy a DeLaval Separator and the cows will keep you. Johnson & Hill Co.

FOR SALE.

Seven room house and lot on south Eighth St. Fine location and a good bargain for \$1400. Inquire of Bauman and Davis, P. O. Block. Office open Saturday evenings from 7 to 8.

Wedding rings, a specialty.

Daly Drug and Jewelry Co.

Comparisons.

This is not a joke. It is a brief dissertation on astronomy. A variable star is one whose brightness has been observed to diminish or increase. The best known variable is in the constellation Perseus. It was called by the Arabians Algol, which means the demon star. This shows that the Arabians knew a thing or two themselves. Algol, which is larger than our sun, is partially eclipsed every 2 days 20 hours 48 minutes and 55.4 seconds by an invisible body about the size of our sun. In observing this phenomenon it is necessary to have in mind the fraction of a second; otherwise you will be liable to miss it. Algol is so far away from the earth that we do not hear the rush of the wind as the two ponderous bodies rush around each other. Compared with the distance of Algol, the diameter of the earth's orbit, which is about 185,000,000 miles, shrinks into an invisible point. When one reflects on the vastness of such distances and the almost unimagineable activity displayed when two such tremendous bodies revolve around each other at a prodigious speed without a hitch or a change in the programme, the excitement about the amount of our gas bills seems petty indeed.—Portland Oregonian.

She Couldn't See the Barn.

An old lady in New Hampshire decided to try matrimony for the second time in extreme old age. Her children and grandchildren and great-grandchildren expostulated with her, but she refused firm and declared that she was going to marry the man, says the Boston Herald.

"Why, you're too old," said they. "You are losing your faculties. You can't see. If this man was on the other side of the street you couldn't tell him from any one else."

The old lady said she was going to marry him. "Now, we'll put the man on top of the barn, and you shall stand in the kitchen door. If you can see him on the barn you shall marry him."

The prospective bridegroom stood on the ridgepole of the barn, the old lady came to the door, looked, shaded her eyes and looked again.

"You see him?" cried the family. "Oh, yes," was the reply. "I can see the man all right, but I can't see the barn!"

Honest Sweden.

The Swedes are punctiliously honest and truthful. When asked for places to dine, for instance, the ticket clerk never fails to inform the applicant of, owing to the crowded state of the house, a better position would be secured with a cheaper ticket than the one asked for. Again, when parcels are taken out by steamers from Stockholm, they are just thrown on to the quay, where they frequently remain half the day without being claimed. If never seems to occur to any one that they could be possibly taken by any one but their rightful owners. On a certain trip of the steamer in the line of the Atlantic, the captain of the passenger keeps his own account of the number of meals and drinks that he has taken during the journey.

Alexis Piron.

Alexis Piron, author of Dyon, is perhaps most notorious for his epigrams. "Here lies Piron, who was nothing—not even an anecdotalist." One night he was asked at a party if he could tell the difference between a woman and a mirror. "A woman," he replied, "talks without reflecting; a mirror reflects without talking." Upon this a lady asked, "Can you now, M. Piron, tell me the difference between a man and a mirror?" And as Piron remained silent she went on, "A mirror is always polished, while a man sometimes is not."

Good Breeding.

A man's own good breeding is the best security against other people's ill manners. It carries along with it a dignity that is respected by the most potent. It breeding invites and authorizes the familiarity of the most timid. No man ever said a pert thing to the Duke of Marlborough. No man ever said a civil one to Sir Robert Walpole—Chatterfield.

COUNCIL PROCEEDINGS.

Council Rooms, April 17, 1906. Council met in last session Mayor Nash presiding. Aldermen present: Arpin, Ketchum, Billings, Steib, Gross, Nissen, Getzlaff, Porter, Pauls, Bossett, Jackson, Rossier, Mulroy, Hill and Nieman, 15. Absent: King, 1.

On motion the reading of the minutes of the last meeting were dispensed with.

The side walk committee to whom was referred the claim of Emilie Schuller reported, recommending that the parties who put in the walk be requested to replace the defective blocks by good ones on the walk, as guaranteed to the city. On motion, the report of the committee was accepted.

On motion, by a unanimous vote the clerk calling the roll the following bills were allowed: Drumb & Sutor, printing—\$50.00; Wool County Drug Co., election blanks—200; Jack Baker, burying one dog—70; J. A. Gaylor, attorney's fees in railway gate cases—20.00.

Total of bills—\$78.50. The following resolution was presented and unanimously adopted by a rising vote of the council.

RESOLUTION. WHEREAS—There has been completed another prosperous period in our city's history marked by a conservative and economical expenditure of the city's funds.

THEFORE—Be it resolved that we tender to Mayor L. M. Nash for his careful and painstaking management our most sincere thanks;—And be it further resolved, that the city of Grand Rapids purchase a life sized portrait of our honored Mayor and cause the same to be prominently displayed in the City Hall in commemoration and appreciation of his services in the administration of city affairs during the past two years.

On motion, the council adjourned. Sine die.

C. E. Boles, Mayor. L. M. Nash, Clerk.

Council Rooms, April 17, 1906. The new council called to order by Mayor W. E. Wheelan. Roll call showed the following Aldermen present: Arpin, Ketchum, Rowson, Steib, Gross, Nissen, Getzlaff, Porter, Kubisiak, Bossett, Jackson, Ristow, Rossier, Mulroy, Hill and Jeffroy.

In Fayette Porter presented his resignation as alderman of the Fourth ward, and, on motion the same was accepted.

Alderman P. Mulroy presented his resignation as alderman of the Seventh Ward, and, on motion, the same was accepted.

Mr. Porter suggested as his successor Mr. R. A. Weeks and alderman Getzlaff presented the name of Adolph Painter. Motion made and carried that the vote for alderman in the Fourth Ward be taken by ballot and the ballot was so taken. The total number of votes cast were 14 of which number Adolph Painter received 10 and was declared elected alderman from the Fourth Ward.

Motion made and seconded that Clark Lyon be elected alderman in the Seventh Ward to succeed P. Mulroy. The motion was carried and Clark Lyon declared elected alderman from the Seventh Ward. Alderman Lyon was sworn in by the clerk.

The following appointments were made by the Mayor.

APPOINTMENTS. City attorney—Mr. J. J. Jeffrey. City clerk—Mr. C. E. Boles. City Physician—Dr. E. Pomainville.

Chief of Police—Mr. J. D. Gibson. Day Police—Mr. John Garlhee. Night Police (East Side)—Mr. John Rath. Night Police (West Side)—Mr. M. Mason.

COMMITTEES. On Finance—Aldermen Rossier, Steib, Ristow. General Business, Aldermen—Rossier, Getzlaff, Rowson. Streets—Aldermen Gross, Hansen, Painter. Sewerage—Aldermen—Hill, Steib, Kubisiak. Sidewalks—Aldermen Arpin, Nissen, Lyons. Waterworks—Aldermen Jackson, Getzlaff, Ketchum. Board of Public Works—Aldermen Gross, Hill, Arpin, Jackson, and Mayor Wheelan. City Engineer—E. I. Phillee. Poor Commissioner—Peter McCannely. Supt. of Water Works—Fred Pfeiffer. City Teamster (East Side)—John Henry. City Teamster (West Side)—Mike Stenck. Waymaster (East Side)—Ed. McCarthy. Waymaster West (Side)—Mr. Phillips.

On motion the above nominations of the Mayor were unanimously confirmed by the council.

On motion Alderman Jackson was elected president of the council.

Alderman John J. Jeffrey presented his resignation from the Eighth ward. On motion, Benj. Hansen was elected alderman from the Eighth Ward to succeed John J. Jeffrey.

On motion, the bonds of the city treasurer and the city clerk were fixed at the same amount as last year, to-wit:—\$50,000 for the treasurer and \$1000 for the clerk.

On motion, the city clerk was authorized to get bids from the newspapers for the city printing and from the banks for the city depository.

On motion, the council adjourned. W. E. Wheelan, Mayor.

About Rheumatism. There are few diseases that inflict more torture than rheumatism, and there probably is no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by John E. Daly, Druggist.

All Run Down

Here is a letter that ought to interest every woman.

You seldom read anything more sincere or to the point.

"I have used four large bottles of Mucu-Tone, and what it has done for me is wonderful. I was all run down, had no appetite, had female and ovarian trouble bad. Since I have taken Mucu-Tone I have not had a doctor, but before I had four doctors, and none seemed to give me any relief. I think it was a blessing when I received my first bottle of Mucu-Tone. I have had several of my friends try it, and it has done them good."

"I hope this will help another sufferer like I was. You can use my letter if you wish.—Mrs. W. J. BRANDENBURG, Akron, O."

Cataract was the cause of Mrs. Brandenburg's sickness.

The ailments of womanhood were but the results of catarrhal poisoning.

Recall Mucu-Tone was prepared for just such conditions. It is a germ destroyer, clearing the system of every trace of the catarrhal parasites, and at the same time toning up the mucous tissues that have been diseased by the catarrhal germs.

No other remedy is so admirably designed for the ailments of women.

We sell a large trial size bottle of Mucu-Tone at fifty cents on a positive guarantee that if you are not benefited we will hand you back your money.

MRS. F. P. DALY

It is stated that the board of reg-
ents of the state are going to recon-
sider their decision of letting out
President Pray of the Stevens Point
Normal. No reason is given for this
decision, but it is the surmise that
they have been watching the news-
papers and other comments through-
out the state and have come to the con-
clusion that their action in the mat-
ter was a mistake. When the board
of regents descend to ordinary politics
of this kind it is time they were let
out in disgrace and a new board put
in. If they were out of their job they
would resign and get out of the pub-
lic gaze as soon as possible.

E. Paycke, the Kansas City com-
mission man, was in the city last
Wednesday being interested in a way
in the sales company that was being
organized in this city by the Wiscon-
sin Cranberry growers. Mr. Paycke
made a short visit at the Tribune
office and it seemed to be his opinion
that the cranberry men were being
fooled, and that they would find the
organization of the company rather to
their disadvantage than otherwise.
The Paycke Brothers have handled a
good many cranberries in the past
and it may be because they are in-
terested parties that they do not con-
sider the sales company a good scheme.

No Time for Common Man.
It appears from the Washington
dispatches that the house of rep-
resentatives made short work of the
proposal to reduce the compensation
paid to the railroads for carrying the
mails. The appropriation was in-
creased \$3,000,000 instead. An amend-
ment to increase the pay of letter carriers
was ruled out on a point of order. It
was "new legislation."

It is noticeable that the government
is overpaying the railroads for carry-
ing the mail. They are being paid
at rates fixed in 1878. When fixed
rates were excessive. Today they are
extortionate. Yet congress refuses to
adjust the rates to conform with the
charge made by the railroads for
carrying express. "The interests"

Selling Out his Stock.
Saul Preston is engaged in selling
out his stock of buggies and wagons
and when the work is completed he
will leave the city, expecting to locate
in Oklahoma, where he will engage
in business. He hopes to get every-
thing closed up here so that he can
leave within the next thirty days.
He has a number of nice buggies
which he is selling at cost.

Let the Farmers Have Cheap
Alcohol.
Intensive farming—the getting of
many crops from a small acreage—de-
pends for its profitability on the ex-
tent to which the employment of hired
labor can be avoided and the land
owner do his own work. Every ac-
cessory, which enables him to increase
to effectiveness his own brain and
muscle, increases likewise the profit
to be recorded at the end of the year.
Cheap power for the running of farm
and dairy machinery is one of the
most important of such accessories.
Alcohol, if freed from the internal
revenue tax of \$2.08 per gallon, would
afford such power. Derived from re-
fuse or surplus grain, potatoes and
other vegetables, for which there is
no market, it can be produced at a
cost of 5 to 15 cents per gallon; and a
gallon will, it is said, create as much
power as two gallons of gasoline. It
is also superior as a preserver of light
and warmth. Here is a resource
which Congress, it would seem, refuses to
deny the farmer by refusing to
repeal the duty as is now demanded;
provided alcohol, to be used in farm
and other industries, shall be de-
naturalized and made impossible of
use in beverages, thus throwing it out
of possible competition with the stuff
so used, and from which the govern-
ment derives a large revenue.—Talis-
man.

Ladies' Aid Society Reorganized
The Ladies aid society of St. Peter
and Paul congregation of this city
was reorganized on the 17th of April,
and officers were elected as follows:
President—Mrs. John Hamm.
Assistants—Mesdames Nels John-
son, Pat Starr, L. M. Nash, D. Lutz,
J. Wehrle, John, Hollmuller, E.
Lynch and Chas. Dixon.
Secretary—Mrs. C. Chandos.
Treasurer—Mrs. F. McCamley.
The society is organized for the
purpose of promoting the interests of
the church and for the purpose of as-
sisting in the work and welfare of
the congregation.

New Homes in the West.
Over a million acres of land will be
thrown open to settlement on the
Shoshone Indian Reservation August
15, 1906. These lands are reached by
the direct route from the Chicago &
North-Western R'y. from Chicago,
St. Paul, Minneapolis, Omaha, and
other points in the Mississippi valley.
Send 2c in stamps for pamphlets, maps
and full particulars to W. B. Kins-
kern, P. O. M. C. & N. W. R'y. Co.,
Chicago.

tion is extended to everybody.

W. H. Brown is painting and
shingling his houses on First and
Second streets. This will make quite
an improvement on the buildings.

The Ladies Foreign Missionary So-
ciety of the Congregational church
will meet at the church parlors on
Tuesday, May 1, in the afternoon.

Dr. Hoenen left last week for Mil-
waukee and Chicago, where he went
with the intention of bringing home
his recently purchased automobile.

Drs. W. O. Banchar, J. W. Rock-
well and W. D. Harvey attended a
meeting of the medical profession in
Stevens Point one evening last week.

W. H. Barnes has painted and
papered the interior of the candy
kitchen during the past week, there-
by very materially improving the
appearance.

Trout Season Here.

The trout season opens in Wiscon-
sin next Tuesday and there are a
number of our citizens who have been
looking forward to the event for some
time past with the idea of taking a
day or two off and putting in the
time along the creeks in this neighbor-
hood with a view to hooking a few
of the speckled beauties.

Going after trout is a sport pure
and simple. If the trout fisherman
kept track of the cost of his rods,
reels and lines, the money he pays
out for rigs and the time spent in
catching the fish, and then weighed
the season's catch and figured out the
price per pound, he would find that
he is paying a price that would make
John D. Rockefeller bald headed in a
moment. But it isn't the number of
pounds or the cost that counts. It is
the feeling you have as you let the
hook quietly down into a hole that
looks fishy, and a moment afterward
feels the sharp tug at the line that in-
dicates a strike, that pays for all the
cost and trouble of the trip. There
may be other things that are more
pleasant but the real trout fisherman
cannot recall them to mind at this
time of the year.

A GUARANTEE THAT
MEANS SOMETHING

Our World's Fair line of coffee in one pound air tight
germ proof packages is put up in different grades at different
prices. Each the best in its class. This coffee received at
the St. Louis fair from the international jury of awards
the highest award grand prize and gold medal. Highest
award at Portland fair 1905, highest award at Liege, Bel-
gium, 1905. But a verdict that we prize even more highly
is the public, which has made in the past Blanke's coffee
the most popular seller on the market and our aim shall be to
continue to merit the endorsement of the public in the future.

If you have not been using Blanke's Worlds Fair coffee,
use this coupon and try a package. If you have been using
one of the medium grades, use this coupon and try the richer
blends. But regardless of which grade you are using, you
may be satisfied that you are getting the best coffee on the
market when you buy

BLANKE'S
COFFEE

The Retail price printed on the face of each package of
Blanke's Worlds Fair coffee is our guarantee that you get
full value for the price you pay.

This coupon is worth 10 cents to you, just to convince
you that Blanke's Worlds Fair coffee is the best you have
ever used. This offer is made to induce you to try a package.
Present this coupon to Johnson & Hill Co. or Charles Persohn
& Son and they will deduct on a purchase of Blanke's Worlds
Fair coffee at 30 cents per pound or better or a half pound
package of the Grant Cabin tea, ten cents from the regular
price. Good when signed by purchaser and countersigned by
the dealer.

humanity, but just for a moment, under the Virginia law. The courts of Great Britain have no such law.

William Waldorf Astor is not at all a man who is easily swayed. He is a man of strong character, and he is a man who is not easily swayed. He is a man of strong character, and he is a man who is not easily swayed.

The king and all his courtiers look upon the young man as a man who is not easily swayed. He is a man of strong character, and he is a man who is not easily swayed. He is a man of strong character, and he is a man who is not easily swayed.

But Mrs. Shaw is extremely popular. She has been presented at court and has been a guest at many of the most important social gatherings. She is a woman of strong character, and she is a woman who is not easily swayed.

King Edward has always admired beauty, charm and talent, though he holds snobbish in supreme contempt, and he considers Mr. Astor a snob.

London Social Success. The wife dropped as much of her ex-husband's name as she could, and became Mrs. Nanette Langhorne Shaw. London was charmed with her. Mrs. John Jacob Astor took the beautiful Virginia under her wing, and introduced her to the best and smartest in London, including the aristocratic circle of the king.

Not only her beauty, but her wit and her superb riding, won Mrs. Shaw her way. She was invited everywhere. Nobles vied with each other in trying to secure her for their parties. She hunted with the best packs in all England. Her daring and plom became

her own special window. "That you, Maria?" she said, without looking up. Maria assented. As she removed her sunbonnet you saw that her hair was glossy black and she had a complexion clear. It was the common opinion in Pinetown that Maria Potter had her age far better than Lucetta, who was two years her junior.

"I saw Deacon Goodyear out in the cemetery, Lucetta," she said, presently. "You don't say so," exclaimed Miss Lucetta.

"Yes, he came down to the fence to ask whether he'd better plant his potatoes or syringas at the corners of his lot. Poor man! He don't seem to be getting over Charina's death a mite. He spoke real feeling about his getting alone and said he couldn't stand it to have hired help fussin' round among her things."

"He's met with a great loss," Charina was a good woman, though if I do say it, she always seemed kind of standoffish with us," said Miss Lucetta, thoughtfully.

"Well, maybe 'twas natural. Of course she couldn't help knowin' how much he used to be here."

Here Miss Lucetta blushed faintly and Miss Maria looked conscious.

Deacon Goodyear's family lot in the cemetery had been carefully selected near the side of the yard, because, as the deacon said, "Charina always liked to be on the 'alidge' of things. The middle hadn't no attractions for her."

In his desire to honor his wife from her character, it never occurred to him that she was engaged to young Lord there. A little further from the Potter homestead. The deacon himself, as time went on, found the proximity

quite pleasing. It was very convenient in his frequent visits to the cemetery, to clear over the fence where Miss Maria was usually at work in the garden and seek advice on any point of household economies with which his masculine brain was inadequate to cope. And the conferences led to an occasional exchange of courtesies, and as a pumpkin pie on Miss Maria's part, or a ham and eggs on the deacon's, the soft-soap sale.

Autumn came on apace. The maples in the Potter yard fluttered their crimson leaves down upon Charina's grave. Miss Maria exchanged her sunbonnet for a hood and hurried preparations for winter.

Invitations to Thanksgiving began to come in, for the Potter sisters were popular in Pinetown; but to her sister's surprise, Miss Maria announced her intention of making a Thanksgiving at home.

"We might invite Deacon Goodyear over," said Miss Maria, growing impatient.

"Well, Maria Potter, I like your consistency!" she asserted. "Invite him to dinner! Where's your chaperon to come from?"

But Miss Maria had thought of that. They would also invite the little school-teacher, who was the widow of her nephew.

Lucetta's objection that she didn't think widows were allowable for chaperones, and that Lucetta was only 24, Miss Maria, as usual, had her way.

The dinner party proved in every way a success. Lucetta, whose only home was a boarding house, accepted the invitation with such delight that she felt a little guilty, and agreed that it was not necessary to explain the capacity in which she was to serve. Yet she unconsciously acted her part to perfection. As for the deacon, he confessed to Miss Maria that he was the first "meal of victuals" he had really relished since Charina died.

Lucetta found herself invited to her own enjoyment. It was very pleasant to come after a hard day in school and spend a cozy evening in the pleasant sitting-room. And nearly always Deacon Goodyear dropped in, and would kindly see her home.

The deacon was less frequently to be seen. The snow was beginning to accumulate, and Miss Maria no longer worked out of doors. Sometimes when drifts were deep, he happened around to see if his syringas bushes were breaking, and kindly offered to "shovel them out."

Once or twice he ventured to drop in without a word of introduction, but to his perplexed reception less cordial.

Without going very deeply into the reason for it, he began to be conscious that he enjoyed his calls less.

Lucetta was present at what evenings she could, but sometimes when it was snowed he called for her with him.

So, in the natural course of human events, it was not long before a rumor came to Miss Maria's ears that Deacon Goodyear was paying Lucetta a marked attention. The story filled her with deep concern, particularly since her ardent observation could but confirm it.

Deacon Goodyear's was a simple, unassuming life. He was a man of strong character, and he was a man who was not easily swayed. He was a man of strong character, and he was a man who was not easily swayed.

Deacon Goodyear's Wooing

By HARRIET A. NASH

(Copyright, 1901, by Joseph B. Bowles)

Miss Lucetta Potter sprang from her chair, hurriedly removing her glasses, and bringing the "far-off" down from the top of her head.

North of the low brick house stretched the village cemetery, and over the picket fence, from the cemetery, a slender woman came with ironical side, leaned on a garden side.

Deacon Goodyear had come around to see how his lot was looking. His manner this morning was not depressed. He had never missed Charina as he did this spring. Seemed as if he couldn't wait for the snow to go off so he could get to her grave. Yet, within ten minutes, having found Charina dead, he had turned to the point, he was offering Miss Maria a position as Mrs. Solomon Goodyear.

Miss Maria was astonished and indignant. With much dignity but in few words, she declined the honor and walked back to the house, leaving the deacon more depressed than before.

THREE FACTS

For Sick Women To Consider

First.—That almost every operation of our hospitals performed upon women comes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the back, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

Second.—The medicine that holds the record for the largest number of cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness, displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

Third.—The great volume of unsolicited testimonials from women of all ages and climes, published from time to time, published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. E. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and immediate supervision has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

MEN AND MATRIMONY.

When a man strikes bad luck he indulges in the most glowing of good resolutions.

The engaged girl takes delight in telling how long she will be away on her bridal tour.

Men are extravagant at the verge of matrimony, but at least three months after the marriage ceremony.

Chicago, Ill.—The Passenger Department of the Chicago & North Western Railway announces that the opening of the Wind River or Shoshone River route to the Yellowstone National Park will be completed by August 15, 1906, by joint resolution of congress.

Railroad construction to the Reservation border is being pushed rapidly, and will probably be completed within a few weeks.

RELIGIOUS RUMOR.

The New York federation of churches, which has been in existence for ten years, is out of debt for the first time in its history. It is spending more than \$100,000 a year in its work.

The congregation will have the international meeting of Young Men's Christian association societies, which brings together between 300 and 7,000 workers from the United States, Canada and Mexico, next May.

Native Protestant Christians in India have formed a national home missionary society to evangelize their own country. The society will be administered wholly by Indian natives, in harmony with existing Christian churches in that land.

The Congregationalists are raising now about \$200,000 a year for church extension, but not satisfied with that are starting a new fund to insure \$500,000 being raised. There are 500 congregations of their denomination in this country.

There are more than 2,000,000 negro Baptists in this country, with 50 institutions of learning and 45 denominational papers. They have a national organization, with boards for missions, home and foreign, education, publication and the young people's societies.

The Armenian church in Fresno, Cal., under the lead of the Rev. H. K. Lankian, on a recent Sunday made a free will offering of the people for the building fund. The amount contributed by 61 members of the congregation was \$1,340, which they expect to raise to \$2,000.

The Salvation Army is making much progress in Germany under the leadership of Commander Oliphant, who the Reinhardt Zeitung declares is almost as interesting a character as Gen. Booth. He is tall and lean, has a very high forehead, bushy eyebrows and long black beard.

His specialty is German fluently and his stations evince thorough familiarity with German literature.

A WOMAN DOCTOR

Was Quick to See That Coffee Poison Was Doing the Mischief.

A lady tells of a bad case of coffee poisoning and tells it in a way so simple and straightforward that literary skill could not improve it.

"I had neuritic headaches for 12 years," she says, "and have suffered untold agony. When I first began to have them I weighed 140 pounds, but they brought me down to 110. I went to many doctors and they gave me only temporary relief. So I suffered on, till one day in 1904, a woman doctor told me to drink Postum Food Coffee. She said I looked like I was coffee poisoned."

"So I began to drink Postum and I gained 15 pounds in the first few weeks and am still gaining, but not so fast as at first. My headache began to leave me after I had used Postum about two weeks—long about my system to get the coffee poison out of my system."

"Now that a few months have passed since I began to use Postum Food Coffee, I can gladly say that I never know what a neuritic headache like any more, and it was nothing but Postum that cured me."

Before I used Postum I would get bewildered and would not know which way to turn. Now I go alone and my head is as clear as a bell. By brain and nerves are stronger than they have been for years." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in pgs.

PECK'S BAD BOY WITH THE CIRCUS

By HON. GEORGE W. PECK
Author of "Peck's Bad Boy Abroad," Etc.

(Copyright by J. B. Bowles)

Pa Is Sent to a Hospital to Recuperate—The Bad Boy Discourages Other Boys from Running Away with the Circus—He Makes Them Water the Camels, Carry the Hyenas and Put Insect Powder on the Buffaloes.

This is the first time since we started out with the circus in the spring that pa and I have not been two "Johnnies on the spot," ready for anything that the managers told us to do.

Oklahoma, though, and the Indian territory, have been too much for pa, and they sent him on to Kansas City to recuperate in a hospital for a week, while the show does Kansas to a finish, and makes a triumphal entry into Missouri.

I wonder how the show will get along without us for a week, 'cause

they sent me to go along with pa, so I could be handy to hold his hands when the doctors are pulling caudex needles out of his hide. I guess pa was willing enough to jump with the night, from what he told us once.

He said when he was a young man he and a railroad brakeman got busted at Topeka, and they had an overbook printed, and went all over Kansas taking orders for Oster pillows, which they warranted to grow so high in two years they would make fences for the farms that no animals, or blizzards could get over or through, and make shade for the houses and the whole farm. It was the year when the Oster willow craze was on, and every farmer on the plains wanted to transform his prairie into a forest.

Pa says the farmers fought with each other to sign orders, and some paid in advance, so as to get the willow cuttings in a hurry. Well, pa and the railroad man canvassed Kansas, and sold more than forty thousand millions of Oster willow cuttings, and put in the whole winter, in the spring, when it was time to deliver the goods, they went into the river bottoms and cut a whole lot of "pussy willow" cuttings, delivered them to the farmers, and not their money and went away. When the pussy willow cuttings did not grow, the farmers got mad, and couldn't march in the grand parade, and pa sent for a plumber to have the camels fixed with faucets.

That boy was a genius, and we kept him and put him into the lemonade privilege. You can fill a camel with a hydrant all right, but if you bring the water in pairs he will beat the game. He remained one boy at Wilmington, Del., who insisted on going along with the show, 'cause his mother made him work after school, and my heart was touched, 'cause I know how a boy hates to work after school, so I gave him a job sprinkling insect powder on the buffaloes, that were scratching themselves against the tent poles so much that I felt they had something alive concealed about their persons. That boy started in with his can of insect powder on a buffalo calf, and then he filled the cow's hair full of the powder, and when he started on the bull, the bull took a snuff of the powder on the cow, and got it up his nose, and he had his head up like a snuff box, and turned his upper lip wrong-side out, and began to paw the ground. Then he made a charge on that boy, and tossed him through the tent, and I looked through the hole, and saw the boy scratching gravel towards town. If he is not running yet, he is, 'cause he is doing chores for his mother both before and after school.

I have discouraged most of the boys who wanted to run away and go with the show, by giving them a curry comb and brush and telling them they could have a permanent job currying off the

have boys enough to grow up and shoot the negroes. But when I found boys who wanted to skip away from home, I would give them a job, and they would have slept in the straw jump with the horses, and eaten at the second table after the negroes had been fed, if they could only shake their comfortable homes and loving friends, and join a traveling circus.

Well, I have given such boys a job watering the camels, and after they had carried water from daylight till dark, and had seen it disappear down a camel and the camels grumbling because they didn't bring water fast, the boys would ask me how long it took to fill up a camel, anyway. I would tell them that if they kept right to work, the camels ought to be filled up full all along in the fall. The boys would reluctantly resign. Our camels have been the making of hundreds of boys by their tank-like capacity to hold water. One boy at Richmond, Va., got it on me by getting a section of fire hose and hitching it to a hy-

drant, and letting the water run into a trough at the camel stand in the menagerie, and before I knew it the camels had filled up until they were swelled four times as big as they were. Then they laid down, and couldn't march in the grand parade, and pa sent for a plumber to have the camels fixed with faucets.

That boy was a genius, and we kept him and put him into the lemonade privilege. You can fill a camel with a hydrant all right, but if you bring the water in pairs he will beat the game. He remained one boy at Wilmington, Del., who insisted on going along with the show, 'cause his mother made him work after school, and my heart was touched, 'cause I know how a boy hates to work after school, so I gave him a job sprinkling insect powder on the buffaloes, that were scratching themselves against the tent poles so much that I felt they had something alive concealed about their persons. That boy started in with his can of insect powder on a buffalo calf, and then he filled the cow's hair full of the powder, and when he started on the bull, the bull took a snuff of the powder on the cow, and got it up his nose, and he had his head up like a snuff box, and turned his upper lip wrong-side out, and began to paw the ground. Then he made a charge on that boy, and tossed him through the tent, and I looked through the hole, and saw the boy scratching gravel towards town. If he is not running yet, he is, 'cause he is doing chores for his mother both before and after school.

I have discouraged most of the boys who wanted to run away and go with the show, by giving them a curry comb and brush and telling them they could have a permanent job currying off the

drant, and letting the water run into a trough at the camel stand in the menagerie, and before I knew it the camels had filled up until they were swelled four times as big as they were. Then they laid down, and couldn't march in the grand parade, and pa sent for a plumber to have the camels fixed with faucets.

Pa says as long as your conscience is clear, and your pores open, life is one glad, sweet song. Well, I don't know, but if pa's conscience is clear, he must have strained it the way they do rain water, to get the wigglers out, or else he has used an egg to settle his conscience, the way they settle coffee. If his pores are open, he has opened them in the old way, with a corker. But, with all I have had to contend with in the way of a frightful example from pe, I am not so young.

How many boys of my age, do you suppose, could put in a season with a circus, and have all the facilities I have had to go wrong, and come out as well as I have? The way they turned just dotted on me would have turned the heads of most boys, but when I found out that all of them, from the fat woman and the bearded woman, to the trapeze performers, ate onions three times a day, I said: "Nay, nay, Henry, will camp with the animals, whose smell is natural, and not acquired."

Say, do you know I have saved hundreds of boys this summer from ruin, 'cause in every town there are lots of boys who want to run away from home and go off with a circus, and 'cause I belonged to the show they all came to me, and pa appointed me to discourage the boys, and drive them away from the show. I know in Virginia all the boys wanted to run away, and but for me the state wouldn't

have been a ruin. CITY PANORAMA OF FLAMES

SAN FRANCISCO IS IN TROOPS OF DISSOLUTION.

Fire Sweeps from Business District to Residence Portion, Turning Everything to Ashes.

San Francisco.—San Francisco is the city desolate. It seemed that the smoke of its misery was reaching at dusk Thursday, when a fire burst from all sides, the least beautiful fairmont, the palace that above every other structure was apparently most strongly entrenched against the attack of the all-consuming fire. And surrounding that lofty pinnacle of flame, as far as the eyes could see to the south, to the east and far out to the west, in a cruel fan that reached the heart of the city, all that remained of a progressive city was in ashes.

San Francisco is not discouraged. Its best and highest class has already begun to plan for restoration and to care for the stricken ones, and the relief will be immediate and effective. Total subscriptions of \$150,000 were announced. Arrangements were made for the immediate relief of the needy, the baking of 50,000 loaves of bread daily. Transportation facilities will be provided by the Southern Pacific to destitute persons desiring to go to

AMONG CRANBERRY MEN.

EDITED BY W. H. FITCH.

LAB communications and special exchanges relating to the department should be sent to Cranberry Men, Wood County, Wis.

Wisconsin Cranberry Sales Co.
At a meeting of state cranberry growers at the office of Hon. John A. Gagnier on April 18, the pros and cons of co-operative action were carefully and candidly discussed and resulted in practical unanimity for formal action. A board of directors was chosen consisting of E. P. Arpin, A. G. Bennett and John A. Gagnier of Grand Rapids; S. A. Warner of Warrens, E. Dano of Mathur, Day of Tomah and H. R. Lang of Berlin. These officers subsequently elected E. P. Arpin president and A. G. Bennett secretary and treasurer.

This movement is regarded in the line of no revolution but evolution, and those belonging to the organization for a year, will leave the marketing of their crops to the Sales Company.

It goes without saying that anything that will insure to the general welfare of the industry is of vital interest and entitled to cordial consideration on the part of all concerned.

COMMUNICATIONS.

WHITEHORN POINT, MICH.
March 16, 1906.—Your favor of the 7th received and comply with request (inquiry about root of growers etc.). The cranberry crop here was almost a failure with the exception of Mr. John Clark's marsh. Your balance were all winter killed. Yours respectfully, John M. Clark.

PERIT, WIS.—Jan. 1, 1906. Will not be able to be in January meeting. Our cranberry work here is not yet out of the mire. Beyond ditching swamps and removing part of the timber, we have done lots of work, but not much more showing towards berry work. Hope this summer to change the face of nature considerably. Have removed to marsh 18 miles from Grand Rapids. Ed. L. Post.

EAST HARTWICK, MASS.—My crop for 1905 was 100 bbls. was the smallest for many years. A week of very hot dry weather seemed to scorch the blossoms and small berries, coming after a long spell of damp, cloudy, cool weather, and then the fruit worm took a good part of what lived thru. Warren J. Nickerson.

BERTIN, WIS.—Too much water here for berries. We only picked enough for our own use. C. A. Davenport.

INDIANAPOLIS, IND.—We read in the Fruit Trade Journal that you were forming an association. If this is a fact we would like to know about it. If this association should be formed, we should like very much to represent you on the Indianapolis market and surrounding territory. Thanking you in advance for an early reply, we remain, Yours truly, H. H. and T. H.

Unique Cranberry Ways.
(With Potatoes in Orange Judd Farm.)

There's not a more wholesome fruit to be had than this tart crimson berry. You may use it in sauce, in jelly, in pies, puddings and tarts and yet you can hardly use it so often as to tire of it.

A New Kind of Pie: Chop fine 2 cups cranberries and 1 cup seeded raisins. Stir 2 tablespoons flour into 1 cup water; dissolve in this 2 cups sugar. Stir together, adding little by little the fruit and cook. This makes filling for 2 pies. If vanilla flavor is liked, 2 scant tablespoons may be stirred in after the mixture is cooked.

Another Nice Pie: Chop coarsely 1 pt. cranberries. Wet 1 tablespoon cornstarch with a little cold water, stir together 1/4 cup molasses and 1 cup sugar, add the cornstarch, then 2-3 cup boiling water, pinch of salt, the cranberries and cook until done. Use two crusts.

Hotly Pudding: Make a dough as for soda and cream tartar biscuits or use some good self-rising flour. Roll in 1/4 inch thick. Spread uncooked cranberries or very thick cranberry sauce, unsweetened, over it. Roll tightly. Roll or steam about an hour and serve with any desired pudding sauce.

Cranberry and Apple: Stew 4 quarts of cored sweet apples until thoroughly done. Stew 1 pt. cranberries until cooked. Then mix and add 2 cups sugar, letting the mixture come slowly to a boil, stirring constantly.

Forty-Four Acres of Cranberries.
The Wisconsin Cranberry company is capitalized at \$250,000 about \$25,000 of which will be in cash to start with. They own P. J. Hoffman's upper marsh in Jackson county, of which forty-four acres are already planted with berries. Large water reservoirs are to be constructed for flooding against frost.

This new company has elected as directors W. G. Hyslop of Blair; T. W. Toombs of St. Paul; J. H. Mills and H. H. Richards of Black River Falls; Prof. A. R. Whitson of Madison; Richard Meyer, Jr., of Lancaster, and C. H. Budka. The officers elected were: W. G. Hyslop, president; T. W. Toombs, vice president; H. H. Richards, treasurer; and J. H. Mills, secretary.

Public Spirited.
The late Martin L. Haines, who died recently at his home in Vincennes, Ind., was the first cranberry grower to utilize the Jersey salt water marshes for cranberry culture. When he first began the industry he said, "I'll put a cranberry on the state shield of New Jersey before I get thru" and he certainly linked the name of his state with the industry so that the civilized world knew of New Jersey cranberries.

At the Head.
The greatest cranberry growing town in the world is Carver, in Plymouth county. There are on the assessor's books 1934 different cranberry bogs, containing from 1-5 of an acre to 160 acres, making a total last year of 1,908 acres. About 850 acres of this are young bogs not yet in bearing, and there were added 70 or 80 acres this spring.—Yarmouth Register.

Just as Tart by any Other Name.
Cranberry was originally "craneberry" because the tree and creeping shrub resembled the head and bill of a crane.—Ohio State Journal.

RUDOLPH.
A far-west party was held at the home of Oscar and Ole Olson Wednesday evening. The evening was spent in playing chess and other games and all report a good time.

Mrs. Delight Livernash of Star Lake is visiting relatives and friends in this burg.

Miss Hattie Johnson who has been employed at Grand Rapids spent the latter part of the week visiting her parents.

Ben Gray is on the sick list.

Oscar and Ole Olson departed Saturday for Scandinavia where they will be employed the coming summer.

Charles Hassel and Adolph Johnson drove to Scandinavia Wednesday.

J. M. Lewis & Sons have now finished their custom sawing at their mill at Warden, being about 250,000 feet, it being all for near-by farmers, wherever they intend to make improvements. They are as follows: Daniel Rezin, Paul Zimmermann, Robert Rezin, John Corner, John Schreiber, John Ellick, E. Morgan, Henry Hamm, Wm. Bartels, Albert Hamm, Frank Moras, John Hamm, Frank Young, Wm. Lawrence, G. O. Weeks, Doll Lawrence, Will Karth, Albert Springer, Fred Karth, E. Coon, August Krath, Joe Kolodziecki, Henry Pagels, Conrad Sicking, Wm. Johnson, Frank Marofski, O. Kronholm, Fred Ott, John Kolmen, Frank Kobz, A. Bantz, R. A. Havenor, Frank Wichman, Chas. Eirland, Orlis. Stadfield, Henry Neuman, A. Neiber, Fred Hans, Joe Moloboff, Mr. Thurston, Conrad Evenson, Herman Alki, Fred Davis, F. Smith, Hattie Nash, Antonio Kobz, Mr. Brewer, Frank Morfiski, L. Jensen, Mr. Maier, Mr. Holmby, P. Rowland, Mat Oigrip. They will soon saw shingles and make brick.

A marriage license has been issued in Marinette county to Peter Kromm of this town, and Mary Strum of the town of Knowlton.

Frank Clark, who has been running the Clover Hill creamery the past year, departed Monday for Bancroft where he has secured a better position. He will be joined by Mrs. Clark next week.

John Golen is at present running the Clover Hill factory.

Announcement has been made here of the coming marriage of William Bratton to Miss Lena Boudreau, a popular young lady of Tomahawk. The marriage is to take place the first of June.

NEKOOSA.
(From the Times.)

The ferry question has been settled as far as the financial part is concerned and the next thing will be the matter of incorporating the company and applying to the county board for a charter permitting the company to operate a ferry across the river at the foot of Market street, where it is proposed to install the motive power of a gasoline engine. It is estimated that \$500 will be about the cost of the outfit and with a capital of a few hundred dollars on hand with which to begin business, the project will be a success from the start.

There has been considerable talk of incorporating Nekoosa as a city and the only legal barrier in the way is the matter of population. According to the state census, there are 1199 people living inside the village limits, while it is claimed that in Wood's Farm settlement, just over the line, there are in the neighborhood of 350 more. The plan suggested to gain the 1500 required by law to incorporate as a city is to first include in the village of Nekoosa the Wood's Farm territory—forming a Greater Nekoosa, as it were—whereby the population would be over 1500.

O. D. Billings, who started a feed mill here a few months ago, using the building which stood back of P. X. Grode's barber shop for the purpose, found it too small to accommodate the increasing business and will put up a large two story building giving ample room to install the necessary machinery and bins so that farmers can be accommodated better than with the smaller mill.

August Brantecker, who has been in the employ of the Central Hardware Co., for many years, has decided to open a tin shop in Nekoosa and will soon be prepared to attend to the needs of our people in the line of tin work and repairing of all kinds.

Mr. Brantecker is a practical tinmith and no doubt he will be kept busy as he will be in a position to do first class work.

HANSEN.
Mr. and Mrs. Theo. Albert were guests of Mr. and Mrs. C. E. McKee Sunday.

Mr. and Mrs. Geo. Baxter were shopping at Pittsville last Thursday. One Lipke transacted business at Vesper last Saturday.

Mr. and Mrs. W. A. Jones spent Sunday with Mr. and Mrs. W. E. Caswell.

Mr. and Mrs. John Maske were shopping in your city last Saturday. W. H. Bean will finish sawing Tuesday.

Geo. Maske spent Sunday with Mr. and Mrs. Chas. Koip.

Carpenters have commenced work on Wm. Miller's new house.

Chas. Natwick transacted business at Vesper last Friday.

John Maske has purchased a new horse.

Mrs. P. Dessant and two children expect to leave next Tuesday for North Dakota where they will make their home.

In speaking of the lineup of his ball team, Manager Malvin of Wausau had the following to say of Alex Bandelin: "Alex Bandelin, out or in field, six feet 1 inch tall, is a neighbor, his home being at Grand Rapids, and is a brother of Oscar Bandelin who got your team to the bad at Marshfield in 1901. In that game Alex played in the field. In 1902 he played second base for Duluth in the northern league and in 1903 and 1904 played shortstop for the Wisconsin state university team."

MACHINE SHOP WORK

We beg to inform the manufacturers in Grand Rapids and vicinity that we have the best equipped machine shop and tool making establishment in this part of the state and we are prepared to do all kinds of machine, engine and pump repairing in a strictly reliable manner and at the right prices.

We make a specialty of re-boring engine and pump cylinders WITHOUT THEIR REMOVAL and we do it in shorter time than it is possible to do this kind of work without our special portable Poring-bars. No engine is too big, none too small for us to bore. We also do heavy steam fitting in all its branches. Give us a trial.

Mrs. P. Dessant and two children expect to leave next Tuesday for North Dakota where they will make their home.

In speaking of the lineup of his ball team, Manager Malvin of Wausau had the following to say of Alex Bandelin: "Alex Bandelin, out or in field, six feet 1 inch tall, is a neighbor, his home being at Grand Rapids, and is a brother of Oscar Bandelin who got your team to the bad at Marshfield in 1901. In that game Alex played in the field. In 1902 he played second base for Duluth in the northern league and in 1903 and 1904 played shortstop for the Wisconsin state university team."

ADDITIONAL LOCAL.
Miss Alta Jenkins is very sick at this writing.

Mrs. Geo. W. Davis has been very ill this week.

Curtis Borard is delivering for J. T. Schumacher.

Theo. Brazner spent Monday in Unity on business.

J. A. Cohen spent Monday in Waupaca on business.

John Kopf of Sherry was in the city Monday on business.

Miss Mollie Stahl spent Tuesday with friends at Nekoosa.

—Wall paper at Daly's.

Alfred Courtney and Margaret Lee spent Sunday at Nekoosa.

Mrs. Anna Keenan spent Sunday at her home in Dexterville.

Mrs. A. Noltner of Babcock was shopping in the city on Tuesday.

Howard Mullen spent a week on the road with his father, T. E. Mullen.

St. Catherine's Guild meets with Mrs. Hoskison on Friday afternoon, May 4.

—Muresco, all colors at Daly's.

Miss Ella Wachs has accepted a position as bookkeeper at J. Farley

The Senate in Session.
When a meeting is made and called in the United States senate that the senate "proceed to the consideration of executive business," the galleries are cleared, the doors are closed, and a secret session begins. "Executive business" is that in which the assent of the president is necessary to the acts of the president, the chief executive, such as treaties and nominations to office. It has become customary, states Yourb's Companion, to call a secret session of the senate an executive session. Oddly enough, all sorts of societies and committees have adopted the phrase, and now almost any meeting behind closed doors is incorrectly called an "executive session." The wisdom of attempting secrecy in certain deliberations of the senate is apparent. In discussing the fitness of the president's selections for office, many facts can be brought out in private conference which should not be spread on the records and sent broadcast over the country. Senators would not speak as freely as they ought if there were the conditions of a secret session. But it is in the consideration of treaties that the secret session is most necessary. A president often has reasons for the adoption of a certain policy, which would be upset if all the world knew what these were. To this day the motives which were really behind the acquisition of Alaska remain somewhat in dispute. Even in the frankness characteristic of modern diplomacy, many nations might decline to continue a compact if they had heard all the advantages to the United States that might be claimed for it in secret sessions. During the civil war both houses adopted a rule under which, on the president's request, communications in regard to military movements or the conduct of the war could be discussed in secret session. All the sessions of the senate in the first congress were secret, as were those of the convention which drafted the federal constitution. Much of the important committee work of congress is still done behind closed doors. Everybody has secrets. The humblest family and the most powerful nation alike possess information which the disclosure of which would occasionally be unwise, and more often unkind.

DIVORCE RULING IS DRASTIC

DECISION MAKES 20,000 CHILDREN ILLEGITIMATE.

Federal Supreme Court Holds Both Parties Must Be Residents of State Where Case Is Heard.

Washington.—It is doubtful if a more momentous decision in the interest of American society has been delivered by the supreme court in recent years than when Monday, by a bench divided five to four, it held that divorce obtained in states which do not have jurisdiction over both parties to a marriage are not enforceable outside the state granting them. The decision is based on the clause of the constitution providing that each state shall give full faith and credit to the decrees of another state. The effect of the decision therefore is that divorces like those obtained in South Dakota by the acquisition of a temporary residence for that purpose are void in the state in which the couple resided only so long as their legal residence is not attached. It follows, therefore, that a divorce, in order to be beyond attack, must be obtained in the state of which both parties are residents. The effect of the decision will be to end the promiscuous granting of divorces and undoubtedly is a long step towards the elimination of the evil which has been believed could only be corrected by a uniform divorce law enacted by the federal congress. The general belief is that divorces will become less frequent as, when the purpose of the decision becomes known generally, the movement in favor of national divorce laws will gain such force as to compel the passage of the constitutional amendment needed to effect such legislation. It is estimated that at least 20,000 children are affected by the opinion. These are the offspring of marriages based on divorces granted where but one of the parties resided in the state issuing the decree of separation. Since Falls, S. D.—The United States supreme court decision in the Haddock divorce case created a sensation among members of the divorce colony here. Attorneys interested in the South Dakota divorce industry say they are not prepared at this time to state what effect the decision will have. However, it is believed that regardless of the decision, the present members of the colony will not abandon their intention to secure divorces.

RIGHT TO PROBE IS DENIED.

Ohio State Senate Cannot Force Witnesses to Testify in Local Investigations.

Cincinnati.—The state senate had no authority to authorize the investigation of the public officer of Cincinnati and Hamilton county, as carried on by the Drake committee, according to a decision filed by the common pleas court in this city Tuesday. The case was that of Thomas F. Davis, cashier of the First National bank in this city, whose refusal to appear as a witness before the Drake committee led to his arrest in a sensational manner followed by the service of a writ of habeas corpus and the bringing of the prisoner before the common pleas court for hearing. The proprietor of a newly furnished New York hotel has given an order to a publishing house for 500 Bibles, which will be placed in the rooms for the use of guests. "It will surprise most persons to know," he says, "that a great many requests come to us from commercial travelers for a copy of the Bible. They say they like to read a chapter before they go to bed. Just why they do not carry the book with them I don't know, but it is a fact this supposedly godless class of men often call for the Bible."

Decree Is Reversed.

St. Paul, Minn.—Judge Sanborn, in the United States circuit court of appeals, Tuesday handed down a decision in the case of Morgan Jones vs. the Missouri Edison Electric company. The court reverses the decree of the lower court.

Succeeds Mayor Chapelle.

San Juan, P. R.—Moxley, James H. Blenk, who succeeds the late Mayor Chapelle as archbishop of New Orleans, sailed for New York. He will go to Baltimore to confer with Cardinal Gibbons respecting his successor.

High Water Damages Mill.

Marquette, Wis.—High water Wednesday carried out the dam at paper mill No. 1 causing heavy damage and forcing the entire mill. There is grave apprehension that the dam may carry out and cause big loss.

Davit Has Blood Poison.

Dublin.—Michael Davitt, who is suffering from blood poisoning, was operated on Tuesday by Sir William Thornley, chief surgeon of the Royal Academy of Medicine in Ireland, and is progressing satisfactorily.

Lumber Plant Burned.

Mobile, Ala.—News has been received here that the lumber plant of the Vinegar Bend Lumber company at Vinegar Bend, 45 miles north of Mobile, has been destroyed by fire. Loss probably \$100,000.

Love Finds a Way.

Baltimore, Md.—Miss Thompson, aged 18, locked in her room with only a wrapper and night dress to wear, donned her brother's trousers and climbed down a rainpipe at midnight in order to elope with Alfred Ross.

Ann Arbor of Michigan Gains.

Ann Arbor, Mich.—The official enrollment figures of the University of Michigan for 1905-6 show a total of 4,571 students. This is a gain of 435 over last year.

JUDGE'S RULING SCORED.

President Denounces Immunity Decision of Humphrey in Packard's Case.

Washington.—In a special message delivered to the national congress Wednesday, President Roosevelt declared that the result of the recent trial of the "beef packers" in Chicago was a "victory of justice" and that the interpretation placed by Judge Humphrey on the will of congress "is such as to make that will absolutely abortive." The message, which is most sensational in character, is based largely on a letter to the president from Attorney General Moody, in which the attorney general reviews the proceedings of the case of the government against the beef packers. The president says it is clear that no criticism attaches to Commissioner Guilford, as what he did was in pursuance of a duty imposed on him by congress. He refers sharply, however, to the decision of Judge Humphrey, saying that congress could not have foreseen such a decision and that he can hardly believe that the ruling of Judge Humphrey will be followed by other judges. He declared that such interpretation of the law as that placed on it by Judge Humphrey "comes measurably near making the law a farce," and he recommends that congress pass a declaration of nullity of the decision of Judge Humphrey. The president also requests congress to confer upon the government, by statute, the same right of appeal in criminal cases, which the defendant now enjoys, where the merits of the case have not been determined.

THREE RIOTERS KILLED.

Deputies Fire on Crowd of Striking Miners at Windber, Pa., with Fatal Results.

Johnstown, Pa.—Three men have been shot dead, a boy fatally wounded and a mining engineer, Eugene Deane, taken to the hospital in a serious condition as the result of a riot which broke out in the town of Windber, Pa., where miners Monday night. Several rioters were slightly injured. The dead men and most of the injured are foreigners. The foreign element had been celebrating Easter Monday in the mining section and the rioting was the result of the miners' strike. A body of strikers were assembled in front of the Windber jail discussing the mass meeting that had been held during the afternoon, and which had been addressed by three Catholic priests. The discussion grew into argument and soon there was a free-for-all fight. Deputies made a number of arrests. All of the arrested men were union men, and their colleagues set up a cry that they were being discriminated against and were imposed upon. The mob, growing more violent every minute, threatened the deputies until the officers fled. Nothing for Arbitration. New York.—A subcommittee of presidents of the anthracite coal carrying railroads and mine operators, headed by President Bach, held a meeting in this city Tuesday and drew up a letter to President John Mitchell, of the United Mine Workers of America, in which the operators again declare that there is nothing to arbitrate except the question whether there shall be any arbitration. This reply is made in response to President Mitchell's recent proposition of arbitration.

Slain for Alleged Treachery.

Kief, Russia.—A workman who was found murdered here had a piece of paper pinned on his coat bearing the inscription: "Vengeance for treachery."

Visible Supply of Cotton.

New Orleans.—Secretary Hostet's statement of the world's visible supply of cotton shows a total of 4,526,025, against 4,555,457 last week. Of the total of American cotton is 2,362,025, against 2,002,457 last week.

Delays Reclamation.

Washington.—The scarcity of labor in the northwest, the increase in the price of materials and also in the rate of wages has caused great delay in carrying out government reclamation projects.

Victim of Assassin.

Cincinnati, O.—Engineer Thomas B. Fleming died at the Good Samaritan hospital, in this city, from wounds inflicted by an unknown negro, who tried to ride free on the Queen & Crescent locomotive of which Fleming had charge.

Fear for Oct Crop.

Springfield, Mo.—Sunday was the warmest 15th of April in the last five years. It is freely predicted that there will be few oats this summer in central or northern Illinois.

Drowned by Caving Bank.

St. Joseph, Mo.—John Kennedy, warden of the presences on the Flat river, of a local hunting club, was precipitated into the river and drowned by the undermining of the bank by high water. He was 35 years old.

Three Killed by Train.

Atlantic, Pa.—Three persons were killed and two injured as a result of a grade crossing accident. The dead were Mrs. Maud Collins, aged 7, and her two daughters, one an infant and the other five years old.

PRESIDENT PLAYS SENSATIONAL AUTHOR IN ADDRESS.

Famous "Muck-Rake" Speech Delivered by Roosevelt at Capital Steps Laying in Washington.

Washington.—The widely heralded and sensational "muck-rake" speech of President Roosevelt was delivered at the Capital steps in the corner of the office building for the use of representatives Saturday afternoon. The satirical and slanderous, misquoting and libel which is being carried on in the guise of moral reform was mercilessly exposed and condemned by the president.

Vicious Writers Rebuked.

The scold, reckless, irresponsible contributors, writers and editors of yellow newspapers and yellow magazines, who have been devoting their evil talents to indiscriminate attacks upon men in business and in public life, were rebuked in a manner that will render their unworthy and menacing occupation less profitable in the future than it has been in the past. The president did not equivocate in denouncing these charlatans of literature.

The War is No Evil Better than the Thief, and if his mendacity takes the form of slander he may be worse than most thieves.

"The effort to make financial or political profit out of the destruction of character can only result in public gain," was another.

"Hysterical sensationalism is the very proper weapon wherewith to fight for lasting righteousness."

"If the whole nation is pained by the fact that there remains no blue water to single out the rascals for distinction from their fellows."

"The foundation stone of national life is, and ever must be, the high individual character of the average citizen."

Thus the president arraigned the bandits of daily newspapers and monthly magazines, who have been striving to convert the unrest of the nation into a permanent state of chaos.

Leslie Peters, the 18-year-old boy who Monday night shot and killed Ralph Burns, a negro, in defense of his own life and his sweetheart's honor, was acquitted by a coroner's jury.

The fact that no more arrests of the mob leaders are expected to be made until the special grand jury gets through with its secret session, has had its effect on quelling the people.

LADRONES ATTACK ARSENAL

Philippine Brigands Raid Constabulary Near Manila, Kill Soldiers and Steal Rifles.

Manila.—Forty ladrones raided the headquarters of the Philippine constabulary in the city of Manila, and stole a large quantity of arms and ammunition. They captured 20 rifles and escaped after killing three men and losing one of their own number.

The exploit was the latest of the kind. The ladrones have been making since American occupation. Malolos is only about 20 miles from Manila, and the raid caused considerable surprise among the Americans here.

A few of the constabulary defended the quarters, but they were captured in the fighting. Two of the offenders were killed and the brigands then proceeded to raid the arsenal. They had secured about 20 rifles when the noise caused by the fight frightened them away. They fled, leaving the arsenal in the hands of the ladrones. A detachment of constabulary and police have gone in pursuit of the robbers.

It is believed the ladrones had learned of the location of the arsenal and had planned to raid it in order to obtain arms and ammunition.

NEED OF INSURANCE LAWS

President Urges Congress to Take Action in Interest of Army of Policy Holders.

Washington.—President Roosevelt Tuesday transmitted to congress an important message relating to insurance legislation. Accompanying the message were the report and recommendations of the insurance commission which was held in Chicago last February. Among the recommendations is the draft of a bill, which congress is urged to enact into law with some amendments as its wisdom may suggest.

The president urged the enactment of the proposed measure, as he says we are not to be pardoned if we fail to take every step in our power to prevent the possibility of the repetition of such scandals as those that have occurred in connection with the insurance industry as disclosed by the Armstrong committee.

Among the recommendations is the draft of a bill, which congress is urged to enact into law with some amendments as its wisdom may suggest.

The president urged the enactment of the proposed measure, as he says we are not to be pardoned if we fail to take every step in our power to prevent the possibility of the repetition of such scandals as those that have occurred in connection with the insurance industry as disclosed by the Armstrong committee.

Father Kills Son.

Quilman, Ga.—C. H. Lloyd, of Morey, returned home and found his wife with a man named Davis, of Quilman. Lloyd attempted to shoot Davis, but the latter wrenched the gun from his hand. Lloyd secured a pistol and waited at the back door for Davis. When the door knob was turned he fired four shots to find later that he had shot and killed his little son.

Red Cross Japanese Fund.

Washington.—A grand total of \$200,000 in contributions to the starving Japanese was reached Wednesday, when the American National Red Cross, which has an additional \$100,000 of the Japanese Red Cross.

Bury Riot Victims.

Johnstown, Pa.—The funerals of two of the striking miners killed in Monday night's rioting, were held Wednesday. Twelve hundred men were in attendance for the funeral procession, but no disorder occurred.

Federal Official Indicted.

Buffalo, N. Y.—Fred O. Murray, once appointed collector of the port of Buffalo and former treasurer of Erie county, was Monday indicted by the grand jury on a charge of stealing from the county of Erie sums aggregating \$38,870 and receiving stolen property in a like amount. In all 17 indictments were handed in by the grand jury which has been investigating alleged grafting in connection with the purchase by the county of the North street cemetery as a site for the Sixty-fifth regiment armory.

Dead Follows Assault.

Des Moines, Ia.—Following a brutal attack on Obadiah Smith and his wife, an aged couple residing near Hampton, A. E. Evans, a prominent insurance man of Waterloo, committed suicide by shooting.

Gnats Killing Live Stock.

Jackson, Miss.—Gnats are killing live stock in large numbers in the Delta counties of the state. Instances are reported where horses have died within an hour after being stung by the gnats.

Blacks Charged with Murder and Assault Grenaded at Springfield, Mo.

Springfield, Mo.—At 2 15 o'clock Sunday morning William Allen, a young negro, was taken from the county jail here and hanged in the public square by the same mob that two hours earlier had hanged Horace Duncan and James Copeland. The body of Allen later was burned to ashes, as had been those of the other negroes, beneath the spot where they had been lynched.

Following the dispatch of Duncan and Copeland some are suggested that Allen and Bus Cain, two other negroes known to be in the jail, should also be lynched. The mob, now blood-thirsty and wrought up to the highest pitch of excitement, readily complied with the suggestion.

The crowd, which numbered in the hundreds, gathered beneath the statue of the Goddess of Liberty. Cain escaped.

Allen and Cain were being held upon suspicion of having murdered O. P. Rusk, while Duncan and Copeland were accused of assaulting Mabel Edwards, a white domestic.

Their work fairly accomplished, the mob quietly dispersed. But Sunday crowds, augmented by hundreds of persons from surrounding towns, gathered in the city streets, making threats of further vengeance, and at night several companies of state militia, ordered out by Gov. Folk, together with 200 deputy sheriffs, patrolled the streets.

Springfield, Mo.—The situation here remained unchanged. There have been no disturbances and the crowds on the streets have diminished in size. The soldiers have remained quietly in camp, ready to march at a moment's notice. Squads of special police continue to patrol all parts of the city that an effort to cause trouble can be stopped before it has a chance to get any strength.

Leslie Peters, the 18-year-old boy who Monday night shot and killed Ralph Burns, a negro, in defense of his own life and his sweetheart's honor, was acquitted by a coroner's jury.

The fact that no more arrests of the mob leaders are expected to be made until the special grand jury gets through with its secret session, has had its effect on quelling the people.

SLITS OF SCIENCE.

Electric sparks are always obtained from Lites reaching a height of a quarter of a mile and increase as the lites go higher.

Gold is one of the most difficult metals to melt, but by the use of the electric furnace it can readily be melted at the temperature of about 4,000 degrees Fahrenheit.

Careful tests made in a German well which has been drilled more than a mile into the earth show that the average rise in temperature is about one degree Fahrenheit for every 55 feet in depth.

The iridescent colors in what is called "peacock coal" are due to the presence of a film of iron oxide. It usually means the loss of a part of the volatile matter in the coal and is therefore inferior quality.

Earthquakes are due to discharges of electricity between strata of good conductivity and insulating strata, like granite and silica, is the view of Prof. Pilanski. The discharges generate gases, to which the observed effects are mainly due.

Dr. Gustave Le Bon, of Paris, has reached the conclusion that matter finally passes away by spontaneous changes in its molecules, as illustrated in the elections of radium, and that the result of these changes is substances which are intermolecular between ponderable bodies and imponderable ether.

The explosion of a radium tube reported by a German investigator gives an idea of the force the emitted gas may store up when confined. A small tube of glass a fifth of an inch thick contained half a grain of the purest radium bromide, and after having been sealed up 11 months it had

EDUCATIONAL NOTES.

Chinese students in Japan cost from \$80 to \$200 a year, each for maintenance, against \$400 to \$2,000 anywhere in Europe. Tokio is a natural educational center for China, by reason of geographical proximity, language facility and economy.

Rev. Dr. William Flave has completed his work with Abnion college, where he has been during the last six years and three months, having, in cooperation with President Samuel Dickey, successfully raised the debt of \$100,000, and some \$75,000 toward the endowment.

What Robert College is doing for women in Turkey, the American college for girls at Beirut, just across the Bosphorus, is doing for the women. A thorough college course is being maintained, thus crowding the work of the various secondary and preparatory schools of the region.

A girls' school at Singapore, Siam, was opened November 9 with 47 pupils, a number which has since increased to 82. Apart from the missionary school this is the first school for girls to be started in Siam outside Bangkok. There is no prejudice in Siam against education and there is plenty of evidence that all over the country others are being started. The position of women in Siam is rapidly improving and all welcome any provision of education for their daughters. The great difficulty, of course, is also in the case of boys, is the want of trained teachers.—Bangkok Times.

INDUSTRIAL ITEMS.

More than 100 persons are employed in the rock salt industry in Anah-Hungary.

The annual industry of Chile yields the government the enormous annual sum of \$2,000,000 in gold from the export duty.

The Irish linen industry is booming, as it has not flourished in years, largely on the expanding export to the United States.

Contracts for the delivery of 1,000,000 tons of coke have been made by the steel mills of the United States for delivery this year.

In an endeavor to foster home industries, the Canadian government has published a number of booklets to be sold to manufacturers and miners which list year aggregated \$1,500 and on from steel products \$110,000 on \$235,000 on crude petroleum, and \$12,000 on hulla fibre.

The production of coal in Germany in 1905 amounted to 121,190,219 tons, as compared with 120,640,085 tons in 1904. Besides this, brown coal, or lignite, was produced to the amount of 2,475,225 tons, as against 2,500,222 tons in 1904. The make of coke reached 16,483,221 tons, as compared with 12,313,163 tons in 1904. The make of briquettes was 13,000,000 tons, as against 11,415,000 in 1904. All these figures for 1905 denote high-water mark.

Least, Hesse, the German officer who was sentenced to six months imprisonment in a fortress for criticizing German military life in a book called "In a Little Garrison Town," seems to have laid down the law. He has been named a wealthy German woman and settled down in Switzerland.

Death Comes with Dawn. The first shock, which lasted about five minutes, and which started the swaying of the city, came just at daybreak, and through a day of tearing the people have fought, added by soldiers, to check the following flames that have burned over ten square miles of the heart of the city, killing many and maiming many, and destroying much of the city's business district and held over.

In spite of the department the property lost at night is estimated at \$2,000,000. It has grown since then and is increasing every hour.
